Note: Please, help me to provide any content and adjust some terminology

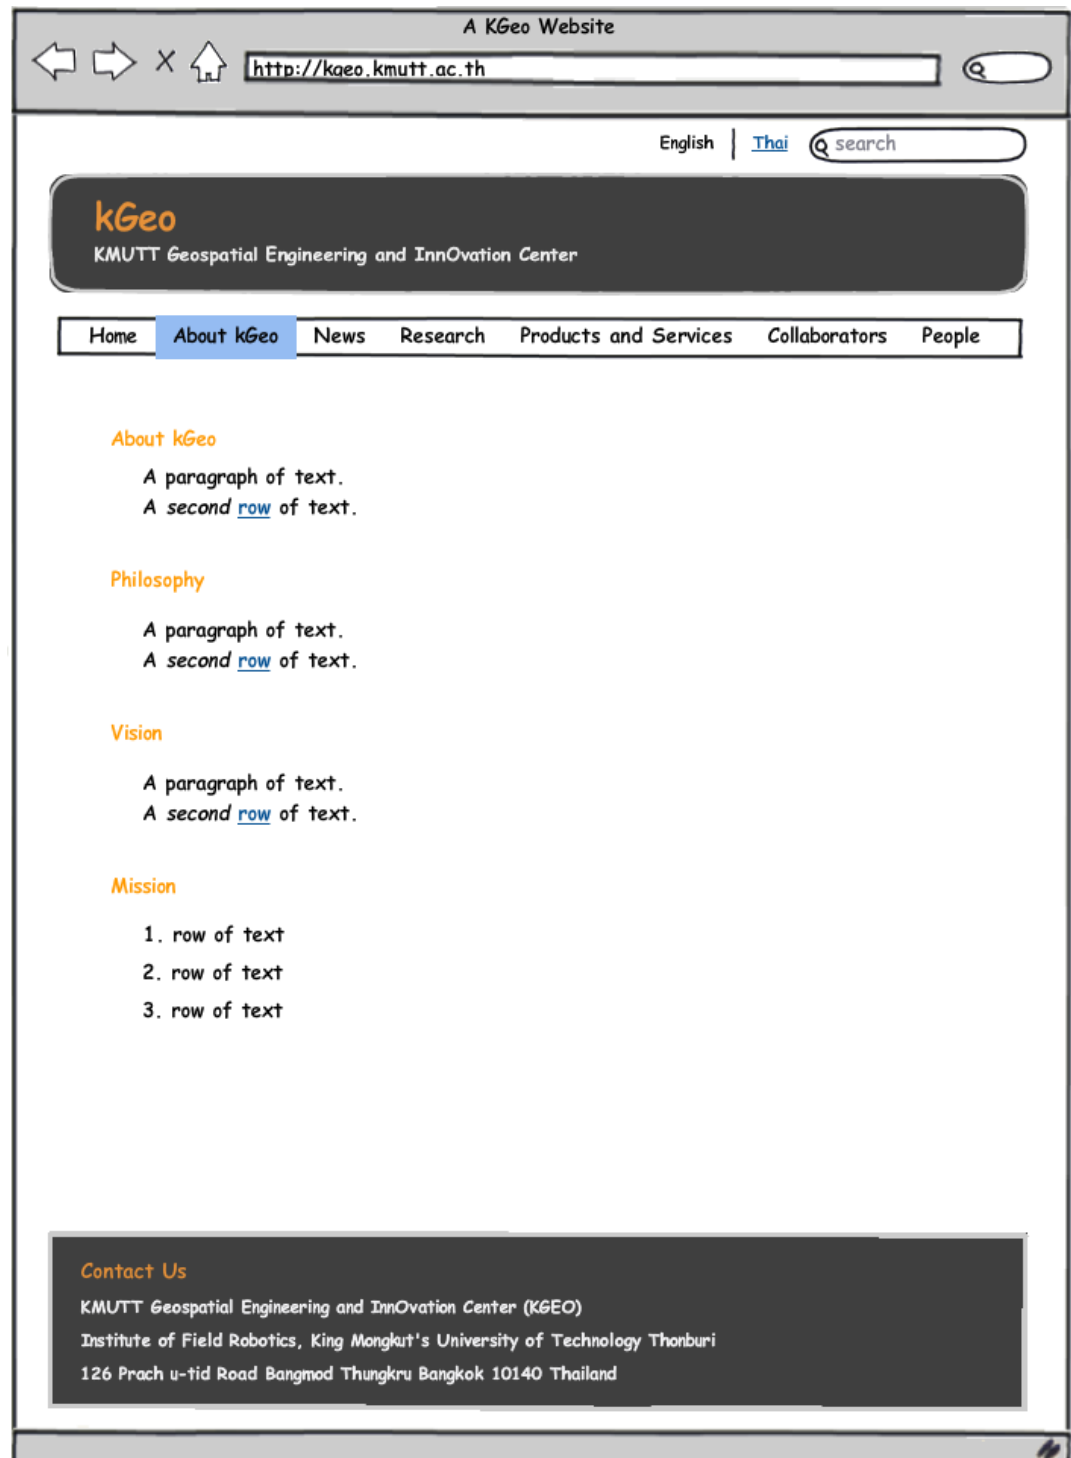

Draft Design

1. Home page

2. Example of arranging content in the webpage

- 2.1 If there are few information for display like in About kGeo tab, we'll present them with an order of bullet.

- 2.2 If there are many information to display like in News tab, we'll present their title with few detail and using the title as a link to open some popup window to show more details.
